

The Oklahoma Legislature is excited to partner with Dave's Redistricting App, a free redistricting mapping resource that Oklahomans can utilize to engage in the redistricting process and try their hand at drawing redistricting maps.

Dave's Redistricting App is free to use. Sign up and log in through the following link to create an account: <https://davesredistricting.org/maps#home>. Video tutorials are available at [DRA on YouTube](#) and written "how to" content is available at <https://medium.com/dra-2020>.

Getting started with your map

To get started, create an account and click the blue "+ New Map" button in the top right hand corner.

You will first name your map. To ensure that the House & Senate redistricting office can easily search for your maps, please include "okleg" in the naming convention (i.e. okleg CD Plan) or utilize the labeling feature on DRA.

Select Oklahoma as your state.

Oklahoma was apportioned 5 congressional seats based on the results of the 2020 Census. For "District Count," type in 5.

Under the "Data Selector" settings, please update the "Census" column to "Total Population 2020" and "Voting Age" to "Voting Age Pop 2020." For more information about the data sources provided through DRA, please consult this page: <https://davesredistricting.org/maps#aboutdata>.

While the Oklahoma Legislature does not include election data in its redistricting database, this is a feature that Dave's Restricting App provides. As a user, you can elect to hide election data. Scroll to the very bottom and click "Apply." Your blank map is set up and ready to get started.

Data Selector ^

Primary Datasets
Select primary datasets, one from each group, which will be used by District Statistics, Demographics Colors and Partisan Lean Colors.
*Selecting **Latest** Census/Voting Age data means your dataset is 2020 data, but will also be updated automatically to 2020 adjusted data if/when the state makes adjustments.*

Shapes 2020 Precincts

Census Total Population 2020 ▾

Voting Age Voting Age Pop 2020 ▾

Display or Hide Datasets
Show or hide datasets in the Details panels. These choices are for **viewing only** and are not used by District Statistics, Demographics Colors or Partisan Lean Colors.

District target population is based on the Census primary dataset, not the recently released state apportionment population.

District Count 5

Districts Have Equal Population

Submitting your map to the Legislature

When you have completed your statewide map, publish your map and email the House or Senate at redistrictoklahoma2020@okhouse.gov or redistricting@oksenate.gov the following information:

1. Name
2. Organization (if applicable)
3. Contact Information (phone, email, address)
4. Statement that summarizes the values/criteria that you prioritized while drawing your map
5. URL link to your map from Dave's Redistricting App, block assignment file and any other supporting documents you'd like to include. To generate a shareable URL, click on the "Share Map" button in the upper right corner and copy that link. To generate a block assignment file, click on the "Export Map" button, also in the upper right corner" and download. Make sure to attach it your email.

If you are using other free or commercially available mapping software, we ask that you email your plan to the House or Senate redistricting office in a compatible electronic format (i.e. block equivalency file) that contains a 15-digit GEOID code for each Oklahoma census block and a corresponding district assignment. We also ask that you identify your data source and only use population data derived from the U.S. Census Bureau.

Who will see your map and how will it be considered?

The public map submission process serves as another opportunity for the public to have input and make recommendations on how congressional districts should be drawn to maximize representation for all Oklahomans. Once you submit your map, a representative of the committee will be in touch and may invite you to present your map at a joint meeting with the House State and Federal Redistricting Committee and Senate Select Committee on Redistricting. If you created your plan through DRA and make it public with the "okleg" designation, we will link to the plan on our legislative redistricting websites.
